

#### **Material Data Sheet**

# UTECFLON-E20

### **General Information**

UTECFLON-E10 is a PTFE (Polytetrafluorethylene) filled with 20% Ekonol. It has good wear and extrusion resistance, especially in dry running conditions. It has similar chemical resistance, and can be used in same temperature range, as pure PTFE, especially in rotary applications at high speeds. It should not be used in hot water.

## **Physical properties**

|            |   | Cream   |
|------------|---|---|
| DIN 53505  | Shore D   | 60 - 65   |
| DIN 53479  | g/cm <sup>3</sup>                                 | 2.0   |
| DIN 53504  | N/mm <sup>2</sup>                                 | > 16  |
| DIN 53504  | %   | > 220   |
| ASTM D1894 | μ   | 0.16  |
